The Mental Alchemy Report

The Mental Alchemist's Formula for Quick Money Attraction

- Lose the Victim mentality. Use what you have to manifest what you want.

"poor me" "I can't..." etc. Don't be a BUTthead. Affirm "I can" "I am"
Limiting Beliefs, let them go & replace them w/ positivity (Mental transmutation)

Pro Tip: (use binaural beats, the cheesier the better, affirm until you synch)

- Only Museums profit from the past-

Observe your thoughts. If the first ones to come to mind are

"I can't" or "I wish but..." then those are negative frequency emotions (Energy in motion) & it's time to reverse them.

The Cosmic Contract

VARIETY IS THE SPICE OF LIFE.

A picture is worth 1000 words, so what about 1000 = 1000 words

Subconscious Subliminal programming

mindfulness meditation

- self ego 432hz frequencies

Epigenetics & how our environment changes us (though we may not be aware)

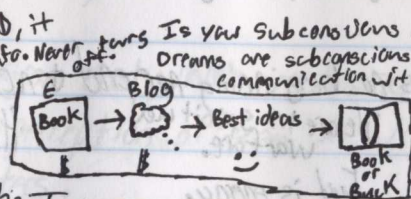

The universe does not care, it only shares energy.

Placebo effect

I can't ~ I can, unlock the pattern. Fake it till you make it.

Email system to send Book - Donation promote system

Subconscious is our HD, it holds all of our info.

We are not our behaviour

Take the leap of faith. I am worthy. If at first you don't succeed, do again. Fail Forward.

Conscious Sub-Conscious

"I want x, but y"

Life is our greatest ~~ADDITION~~

Psychological Reversal

Why am I feeling these feelings. Be open to accept the answer & transmute.

Bleeds in energy (Self Sabotage)

Replace these thoughts "lack of willpower"

"I can't because..." "There's something wrong w/ me"

With Empowering Thoughts "I can" "I will" "I am"

Everything after the but is the truth (The why)

Beliefs are powerful. Modern systems are built on them,

we go to war over them, erect statues → cities → sanctuaries over them. The subconscious only reads symbols, images, etc. Reprogram it

When you wanna do x & your mind tells you why you can't, blame your subconscious. Reptilian mind which still runs 95% of people. (250 mya)
